Software Engineer with 5+ years of experience designing, developing, and deploying scalable mobile and web applications. Specialized in React Native, React.js, Next.js, and TypeScript with hands-on experience delivering production-ready Android, iOS, and web applications. Skilled in state management, REST API integration, payment gateway implementation, app store deployment, performance optimization, and cross-functional collaboration. Proven track record of building user-focused products across e-commerce, logistics, education, and enterprise domains.

🧠 SKILLS

Mobile Development

- React Native
- Expo
- Push Notifications
- Deep Linking
- Android Development
- iOS Development
- Google Play Store Deployment
- App Store Deployment

Frontend Development

- React.js
- Next.js
- Redux Toolkit
- RTK Query
- Material UI
- Tailwind CSS

Backend & Databases

- Node.Js
- FastAPI
- SQLite
- MongoDB

Others

Git, REST APIs, Axios, Stripe/PayPal/Afterpay/Jazzcash integration, Docker

Tools & Deployment

VS Code, Postman, Xcode, Android Studio, GitHub, Docker

🌐 LANGUAGE

- English
- Urdu

👛 EXPERIENCE

Baraqi, Software Engineer

May 2025 – Present | Canada

- Develop and maintain cross-platform mobile applications using React Native and build responsive web applications using React.js, Next.js, and Astro.
- Design and develop RESTful APIs and backend services using **FastAPI** and Python.
- Implement authentication, authorization, and secure API integrations for mobile and web applications.
- Integrate third-party services, payment gateways, and external APIs.
- Deploy and manage Android and iOS applications on Google Play Store and Apple App Store.
- Collaborate with product managers, designers, frontend developers, and backend teams to deliver scalable solutions.
- Optimize application performance and API response times to reduce latency and improve overall system reliability.
- Participate in code reviews, bug fixing, testing, and production releases.
- Work with Git, Docker, and modern development workflows to support continuous delivery.

iPlex, Senior Frontend

July 2023 – May 2025 | Islamabad, Pakistan

- Developed mobile and web applications using React Native, React.js, Next.js, JavaScript, and TypeScript.
- Contributed to application architecture, sprint planning, development, testing, staging, and production releases.
- Deployed and managed Android and iOS applications on the Google Play Store and Apple App Store.
- Collaborated with distributed teams using Jira and Trello.
- Worked with Docker-based development environments and deployment workflows.

Saufik, Junior Frontend Developer

October 2022 – May 2023 | Islamabad, Pakistan

- Developed mobile and web applications using React Native, Flutter, React.js, Next.js, JavaScript, and TypeScript.
- Implemented responsive user interfaces and integrated backend APIs.
- Collaborated with stakeholders to deliver high-quality features and enhancements.
- Improved application performance and user experience.

EDUCATION

University of Science & Technology, Bannu,
Software Engineering
2016 – 2020

Gitrex Technologies, Internship -> React Native Developer

June 2021 – October 2022 | Islamabad, Pakistan

- Developed production-ready React Native mobile applications.
- Integrated REST APIs and third-party libraries.
- Participated in debugging, testing, and release cycles.
- Worked closely with senior developers to implement scalable mobile solutions.

RECENT PROJECTS

rareOS Platform , *ReactJS, Keycloak, Material UI, RTK Query*

- Developed and maintained a modern commerce management platform for merchants, integrating inventory management, point-of-sale operations, marketplace distribution, and business analytics.
- Built responsive web applications using React.js, TypeScript, and Material UI to deliver scalable user experiences.
- Designed and integrated FastAPI backend services and RESTful APIs to support inventory management, transaction processing, reporting, and platform automation.

rareOS Scanner App , *React Native | TypeScript | Keycloak | Supabase*

- Developed and maintained a cross-platform enterprise mobile application using React Native and TypeScript.
- Designed a streamlined 3-step workflow (Snap, Track, Sell) optimizing inventory processing speed.

Engage App , *React Native | TypeScript | Keycloak | AI-Powered Legislative Research Platform*

- Developed and maintained a cross-platform enterprise mobile application using React Native and TypeScript.
- Built secure integrations with FastAPI backend services to deliver legislative research and policy monitoring capabilities.
- Integrated AI-assisted policy analysis features to help organizations research and monitor legislative activities efficiently.
- Integrated conversational AI features to facilitate real-time policy queries.

Connect App , *React Native | TypeScript | Keycloak | REST APIs*

- Developed a cross-platform mobile application that enables users to discover and connect with elected officials, legislative staff, committees, and government offices across multiple U.S. states.
- Developed responsive mobile interfaces using React Native and TypeScript for both Android and iOS platforms.
- Deployed to the Google Play Store and Apple App Store.

rareOS Website , *ReactJs, Tailwind CSS*

- Built responsive web applications using React.js, TypeScript, and Tailwind CSS to deliver scalable user experiences.

Wisemarket App ,

React Native | TypeScript | Redux | Hooks | Payment Gateway Integration

- Platforms: Google Play Store | App Store
- Developed and published a full-featured online marketplace app offering a wide range of tech products and accessories at competitive prices.
- Implemented efficient state management using Redux and Hooks, and integrated secure payment gateways to support seamless transactions.
- Focused on building a scalable, user-friendly, and responsive mobile application for both Android and iOS platforms.
